

T-FOET with CA-EBS and FTSbB

Tropical Further Offshore Emergency Training with Compressed Air Emergency Breathing System and Further Travel Safely by Boat

The aim of the T-FOET with CA-EBS and Further TSbB is to provide the learners with the opportunity to practise and demonstrate emergency response skills which are not possible to practise during drills, exercises and emergency training offshore. This course is a refresher option for the BOSIET / T-BOSIET courses.

This programme is designed to meet the further offshore safety and emergency response training requirements for personnel working in the offshore oil and gas industry in a tropical environment and flying on helicopters equipped with compressed air emergency breathing system (CA-EBS).

This course is also available with Emergency Breathing System (EBS) instead of CA-EBS.

General Course Objectives

The objectives of the T-FOET with CA-EBS and Further TSbB are that learners will be able to:

- a. Demonstrate, in a simulated environment, that they can use the safety equipment and follow procedures in preparing for and during helicopter emergencies – with particular focus on escaping from a helicopter following ditching.
- b. Demonstrate that they can use basic firefighting equipment effectively, and use self-rescue techniques in low visibility and completely obscured visibility situations e.g. smoke filled areas.
- c. Demonstrate that they can perform basic first aid.

Course Content

- Fire Fighting & Self Rescue practical exercises
- Sea Survival & Lifeboat (TEMPSC) practical exercises
- First Aid & Hypothermia theory & practical exercises
- Helicopter Safety Procedures & Helicopter Underwater Escape Training (HUET) practical exercises including the use of compressed air emergency breathing system (CA-EBS)
- Boat transfer exercises

Delivery Options:

- T-FOET with Shallow Water CA-EBS and Further TSbB
- T-FOET
- T-FOET with EBS
- T-FOET and TSbB
- T-FOET and Further TSbB
- T-FOET with EBS and TSbB
- T-FOET with EBS and Further TSbB
- T-FOET with Shallow Water CA-EBS
- T-FOET with Shallow Water CA-EBS and TSbB

Prerequisites:

- Valid medical certificate
- Valid BOSIET, T-BOSIET, FOET or T-FOET certificate
